📍 Bidyadhari Pally, Canning-1, South 24
Parganas, Pin-743363, West Bengal, India

EDUCATION

B.Tech in Computer Science & Engineering: Greater Kolkata College of Engineering & Management

2022-2026

Pursuing (Current CGPA / Percentage: 80%)

Higher Secondary Education (12th Board): Hari Har Mahavidyalay

2021-2022

87%

Secondary Education (10th Board): Canning David Sassoon High School

2019-2020

60%

SKILLS

- **Frontend Development:** HTML5, CSS3, JavaScript (ES6+), React.js, Responsive Web Design, DOM Manipulation
- **Backend Development:** Node.js, Express.js, Java (Core)
- **Databases & Cloud:** MongoDB, Firebase/Firestore, API Integrations
- **AI Tools & Integrations:** Prompt Engineering, LLM API Integration (OpenAI/Gemini), AI-Assisted Development (GitHub Copilot/Cursor)
- **Development Tools:** Git, Version Control, Code Debugging, System Architecture & Folder Structuring
- **Core Competencies:** Object-Oriented Programming (OOP), Data Structures & Algorithm Implementation, Computer Vision Basics

LANGUAGES

- Bengali: Native Proficiency
- English: working Proficiency
- Hindi: Conversational Proficiency

PROFILE INFO

Highly motivated and results-driven Computer Science Engineering student and AI-Powered Full-Stack Developer, specializing in the MERN stack (MongoDB, Express.js, React.js, Node.js). Equipped with practical experience from a 6-month Web Development Internship at Euphoria GenX, where I collaborated on live projects and real-world development tasks. Demonstrated expertise in designing system architectures, building responsive user interfaces, and developing scalable real-time applications. Adept at problem-solving, object-oriented programming, and implementing modern web technologies to deliver seamless user experiences. Eager to leverage technical skills in a dynamic development environment to build impactful digital solutions and drive innovation.

EXPERIENCE

Web Development Intern | Euphoria GenX

Duration: 6 Months

- Completed a 6-month internship at Euphoria GenX, gaining practical experience in professional software development.
- Collaborated on real-world development tasks and worked on real live projects to deliver impactful web solutions.
- **Technologies Used:** HTML5, CSS3, JavaScript (ES6+), React.js, Java, Responsive Web Design, Git / Version Control, Debugging, Basic Database Concepts, Object-Oriented Programming.

Internship Live Projects:

- **E-commerce Shopping Website**
 - Technologies: HTML, CSS, JavaScript, React.js
 - Features: Developed a responsive UI, dynamic product catalog, shopping cart, secure user authentication, and implemented modern React components.
- **Food Ordering Website**
 - Technologies: HTML, CSS, JavaScript, React.js
 - Features: Implemented seamless menu browsing, order placement workflows, responsive design, interactive UI, and robust state management.

PROJECT PORTFOLIO

- **GreenCart (Full-Stack MERN):** Developed a scalable, eco-friendly e-commerce platform featuring a dynamic product catalog, secure user authentication, and advanced shopping cart functionality.
- **Real-Time Collaborative To-Do List (React.js & Firebase):** Built a task management app with instant collaborative updates, robust CRUD API calls, and Firestore integration for real-time data synchronization.
- **Real-Time Face Mask Detection System (React.js & Computer Vision):** Created a web-based detection application integrating computer vision models with a responsive React.js frontend for real-time user feedback.
